50X1-HUM

1. The Main Tank Workshop (Glavna Tenkovska Radionica) at Mladenovac was expanded in the summer of 1949 and converted into a Technical Military Establishment working exclusively for the Yugoslav Army. Its primary functions are the construction and repair of tanks, but experiments are now being made involving the overhaul of German Mark III tanks and the replacement of their turrets.
2. This establishment employs about 600 workers, but it is planned to employ 2,000 during the course of 1950, by which time it is expected that the machinery and equipment ordered from abroad will have been received. The equipment already installed was purchased from Czechoslovakia.
